

Piranha™ FISHING PLIERS

NEW!

Tough and Lightweight, With Super Sharp Cutters!

Accurate's new rugged, yet lightweight fisherman's pliers/cutters are engineered to securely hold fish while removing hooks, crimp soft lead sleeves, form wire connections, and easily cut virtually all types of fishing lines. Made from aircraft-grade 6061-T6 aluminum, they feature a satin-platinum anodized finish, replaceable jaws and cutters, and an ergonomic design for easy-grip comfort. Available in two sizes, they're built to last a lifetime!

7-inch Model
4.8 Ounces

SHEATH And LANYARD

Optional are molded nylon sheaths, plus self-coiling safety lanyards with snaps for connecting pliers to sheath.

8-inch Model
5.6 Ounces

GRIPPING JAWS

Sure-hold jaws are made from super-tough, lightweight 440C heat-treated stainless steel — and are easily replaced, if necessary, via quick-out screws.

CUTTERS

Extremely sharp and made from the same tough materials as the jaws. Cut mono and fluorocarbon lines, single and multi-strand wire, plus high-tech braided lines — even microbraids! Easily replaced, via quick-out screws.
